ROGUE - ACTIVE

SUMMARY

Conditioned single-purpose assassin, product of a collapsed sanctioned program absorbed by the rogue Alpha unit under FATEH. Designation ALPHA. Raised in isolation, weaponised from infancy. As of 2025-26 has broken from her unit; motive and direction unresolved. Treat all self-reported history as operative belief, not verified fact.

ORIGIN

Born 2007. Per unit lore and the subject's own account, the infant was taken by FATEH during the collapse of an off-books program and the killing of her mother by hostile parties; the subject is named for that mother and carries the loss as a debt. Raised in total isolation at unit sites as the Alpha weapon. The abduction-and-murder narrative is recorded here as the subject's working belief; provenance is not independently confirmed.

PSYCHOLOGICAL PROFILE

Reads any environment in three fixed channels: lethal threat-geometry, break-point profiling of persons present, then a suppressed appetite for belonging she actively distrusts. Holds obedience as identity and grief as obligation. Affect spare, flat, tactical. At eighteen showing early, destabilising signs of an emergent self — the single largest variable in her current behaviour.

CONDITIONING & CONTROL

Subject is the output of sustained isolation conditioning under FATEH: deprivation, identity suppression, and a manufactured grievance narrative used as compliance leverage. Control was near-total until the recent break. The conditioning is the mechanism; its loosening is the threat.

FIRST OPERATION

Eighteenth-birthday tasking: a single sanctioned Alpha kill executed at a high-end restaurant and adjoining hotel, New Delhi. Recorded on file as a legitimate unit lead, cleanly serviced. No anomaly flagged at unit level at the time.

CURRENT DISPOSITION

Defected from FATEH following an order she did not execute. Exfiltrated with inside assistance. Subsequently implicated in the assault on FATEH's base ('Lanka'). Now off-leash, highly capable, and of contested loyalty. Locate and assess before any approach.

KNOWN ASSOCIATES

FATEH Commander of the rogue Alpha unit; the subject's conditioner and controller; took
RUDRA Senior unit operative and protector-figure to the subject; facilitated her defection
JANAKI The subject's mother. Recorded deceased 2007. Present on file only as the origin

TRAINING

Trained from infancy under FATEH's isolation regime: close-quarters lethality, edged and firearm work, surveillance and counter-surveillance, infiltration of high-security civilian venues, target profiling and break-point exploitation. No formal schooling, no documented life outside the unit. Skill set is institutional and deep; social and emotional baseline is near-absent by design.

CAPABILITIES

Single-operator lethal capability at the top of the unit's roster. Comfortable in hardened civilian environments (restaurant, hotel, corporate floors) and against protected principals. Reads and dismantles security postures on sight. Pain-tolerant, deprivation-hardened, low signature. Principal limiter is no longer skill but an emerging and unpredictable will of her own.

OPERATIONAL RECORD — SELECTED

- 2007 – ACQUIRED by Alpha unit during program collapse (per unit record).
- 2007–2024 – Held in isolation; conditioning and weaponisation regime.
- 2025 – First sanctioned kill on 18th birthday; restaurant + adjoining hotel, New Delhi; clean.
- 2025 – Tasked against MIRA; order not executed; break from FATEH initiated.
- 2025 – DEFECTED; exfil facilitated from inside the unit.
- 2026 – Implicated in assault on 'Lanka'; whereabouts fluid.

THREAT LEVEL - SEVERE

Top-tier lone-operator lethality with intact tradecraft and now no reliable handler of record.

STANDING ORDERS

Do not approach unilaterally. Locate, fix, and maintain standoff surveillance only. No contact attempt without divisional clearance; assume she will read any overt approach as a kill-frame. Priority is the chain behind her, not the trigger: identify who is actually directing her movement before she is engaged. Lethal action authorised only on imminent-threat-to-officer grounds.
