ROGUE

ORIGIN

Marwari Rajput, modest service-class family; recruited into the Cabinet Secretariat in 1991 off a military-intelligence detachment. Built a reputation on the Northeast desk as a corridor man, fluent in the Moreh and Mizoram crossings, comfortable among smugglers, customs men and crossing-masters. Carried as competent, insubordinate, irreplaceable on the ground.

CAREER ARC

Eighteen years ago the subject reported a foreign sleeper network being seeded into the strategic establishment. The finding was buried and the sanctioned channel closed. After that point his file goes dark: no postings of record, no accountable chain, yet continuous presence in the corridors. He commands nothing he owns; he works through debt and leverage, a crossing-master, a hawala broker, the odd bought diversion.

PRESENT ACTIVITY

Assessed to be choking the seized Golden Crescent pipeline (Afghan/Pakistani heroin and counterfeit currency, Punjab ingress) not by seizing it but by strangling the men who run it. Pattern reads as bait: starve the network, draw it toward a single deniable engagement. We have designated the anticipated event the LANKA SWEEP.

FINANCE

Eighteen years of siphoned Golden Triangle narcotics money, laundered via Bangkok and Dubai through hawala and trade-based washing. No empire, no holdings in his name; pure leverage. Funds an operational capability the state cannot see on any ledger.

DISPOSITION

Ideologically driven, not venal. Subject believes he alone foresees a strategic catastrophe and weighs every gram of narcotics moved against it. Cold, methodical, immovable. Treats himself as the only officer willing to sign what no one will sign.

TRAINING

Military-intelligence grounding pre-1991, then two decades of human-terrain tradecraft on the Northeast frontier: agent recruitment, debt cultivation, narcotics-corridor logistics, hawala mechanics, deniable-cell construction. No record of a formal paramilitary or wet-work course; his craft is running other people to the edge and keeping his own hands clean of paper.

CAPABILITIES

Master handler and leverage architect. Builds and sustains an off-grid operational capability with no chain of accountability and no traceable funding. Long-horizon planner; runs operations on eighteen-year timelines. Personally low-violence but commands lethal instruments at one remove. Strategic patience and total deniability are his weapons; he has never once spent the single highest card he holds.

OPERATIONAL RECORD — SELECTED

c.2008 – Filed report on foreign sleeper penetration of strategic establishment; finding suppressed
c.2008 – Subject vanishes from books while remaining active in corridors.
2008-2026 – Continuous siphon of Golden Triangle proceeds; Bangkok/Dubai wash sustained.
2026 – Onset of strangulation campaign against Golden Crescent pipeline (Punjab ingress).
2026 – Indicators of a staged deniable engagement (designated LANKA SWEEP) being baited.
2026 – Hostile contact 'Mira' makes approach to primary asset; loyalty status now in flux.
LANKA SWEEP – TRUE OBJECTIVE AND [REDACTED] [SEALED]

THREAT LEVEL - SEVERE

Sanctioned-grade capability operating wholly outside sanction; exposure forces state disavowal.

STANDING ORDERS

Locate and fix; do not approach with standard arrest protocol. Treat all funding and corridor assets as live and self-sustaining. Identify and isolate the primary asset before any move on the principal. No documentation of this file below need-to-know; readership not cleared to the sealed annexes. Capture preferred over neutralisation pending recovery of the proof he is assessed to control.
