ACTIVE - EYES ONLY

CHARACTER

Career officer of unimpeachable record. Doctrine of accountable deniability: every off-books action must keep a named owner who can answer for it. Reads a signatureless operation as an operation already gone rotten. Virtue is genuine and load-bearing; it is also the lever.

CURRENT TASKING

Directing the shutdown of an ownerless rogue cell, designation ALPHA, attributed to subject FATEH, surfaced through the present-day narcotics-pipeline investigation (Golden Triangle / Golden Crescent corridors via Myanmar, Bangkok, Dubai). Subject judges ALPHA the principal threat. His judgement on the principle is sound.

TRUST RELATIONSHIPS

Subject places total confidence in his senior deputy SEHGAL, as does the whole building. This confidence is the operative vulnerability and is the channel by which subject's targeting is being steered.

LEGACY THREAD

Investigation runs back to a 2008 inception event: officer JANAKI detected the foreign network at birth and was killed, the death dressed as enemy action. Proof she concealed is now resurfacing. Subject does not connect the 2008 file to his current target.

STILL POINT ..... KABIR, resident at a remote Himalayan monastery both timelines circle

TRAINING

Infantry commission, regimental command, then external-intelligence tradecraft across three decades. Schooled in agent handling, deniable-operation authorization chains, and the law-and-conscience framing of state violence. His formation is institutional rather than field-assassin: he is the man who signs, not the man sent.

CAPABILITIES

Commands the full apparatus of R&AW: surveillance, station networks, paramilitary deniable assets, and authority to order sanctioned action. His decisive capability is signature authority. The danger is not that he is wrong by nature but that a correct instrument can be aimed; pointed at FATEH he brings the whole service to bear on it.

OPERATIONAL RECORD — SELECTED

2008 – 2008 inception file logged as enemy-action loss; JANAKI closed out KIA  
2026/Q1 – narcotics-corridor probe surfaces cell ALPHA; subject opens shutdown tasking  
2026/Q2 – trails consolidated onto FATEH; subject commits the service to the target  
2026/Q2 – LANKA assault authorized against FATEH on subject's signature  
ACTUAL TARGETING VECTOR BEHIND TH [REDACTED] [SEALED]

THREAT LEVEL - HIGH (INADVERTENT)

Not hostile to the state; his correctness, steered, is the instrument of the catastrophe.

STANDING ORDERS

Do not brief subject on the inner-circle penetration assessment through normal channels; assume his reporting line is compromised at the deputy level. Preserve the 2008 proof outside HQ custody. Treat any operation that consolidates the entire service onto a single ownerless target as suspect until the owner question is independently answered. Subject is an asset to be protected and redirected, not neutralized.
