

FILE	KAB/DHAL-1975
NAME	DHALIWAL, Kabir
RANK	Major (R&AW liaison, off-bo
ETHNIC/REGION	Punjabi Sikh (Jat), North I
DOB	[REDACTED]
LAST KNOWN LOCATION	Remote Himalayan monastery,
LANGUAGES	Punjabi, Hindi, Urdu, Engli
SERVICE STATUS	separated; voluntary withdr

CLASSIFICATION: TOP SECRET // EYES ONLY. Provenance and status fields are sealed above this copy; see the assessment overleaf.

WITHDRAWN

BACKGROUND

Commissioned officer routed early into a deniable R&AW off-books cadre during the 2007–2008 reorganization period. Field-rated for long-cover penetration work. Career file thins sharply after 2008; subsequent decade is administratively dark.

MENTOR / HANDLER

Trained under operator codename LUTHRA, listed as deceased. Circumstances of death recorded as operational loss in the field. DHALIWAL was the last cleared contact. No further entry.

PRESENT DISPOSITION

Subject has severed all service contact and resides at a high-altitude monastery. Reads as renounced: takes no commissions, issues no demands, defends no past action. Assessed as genuinely withdrawn rather than dormant, though capability is undiminished.

MERIDIAN / TRINETRA NEXUS

Subject is believed to be among the very few who have observed the MERIDIAN/TRINETRA apparatus from the far side of an operation and survived intact. Knowledge value is high. He neither markets nor conceals it; he simply holds it.

BEHAVIOURAL READ

Spare, still, beyond justification. Operates on a private settled ethic: certain acts are done for the greater good and carried in silence thereafter. Shows neither pride nor remorse. Will give a petitioner what they need. Will fight if pressed, and is expected to win.

KNOWN ASSOCIATES

MENTOR (DECEASED) former handler LUTHRA; relationship terminal, see MENTOR/HANDLER
PETITIONER (F) operative climbing to seek counsel; subject of an active decision he has
ESCORT (F) second climber accompanying the petitioner; capability unrated
WARLORD 'FATEH' principal of fortified base 'Lanka'; adversary-adjacent, no current cont

TRAINING

Long-cover penetration, deniable wet-work, counter-surveillance, and infiltration of hostile non-state networks. Cross-trained in the tradecraft of the 2007-2008 cadre: legend-building, dead-drop and handler discipline, close-quarters lethality. Mountain-acclimatized. A decade of monastic discipline has narrowed rather than dulled the skill set.

CAPABILITIES

Retains full field-grade lethality at close quarters despite withdrawal. Reads operations structurally and predicts intent without instrumentation. Immune to ordinary leverage: no family, money, or status pressure point on file. The one standing exposure is moral, not physical. Treat any approach as potentially terminal if he judges it necessary.

OPERATIONAL RECORD — SELECTED

2007-2008 // inducted into off-books cadre; first deep cover assignments
c.2008 // LUTHRA logged deceased; subject sole surviving contact
2008-2024 // administratively dark; no recorded taskings
c.2024 // confirmed resident, Himalayan monastery; all service contact severed
2025-2026 // located by petitioner party; consultation in progress

TRUE NATURE OF LUTHRA TERMINATION [REDACTED] [SEALED]

THREAT LEVEL - MODERATE (conditional: HIGH if cornered)

Passive while unprovoked; lethal and unstoppable if forced to defend the silence he keeps.

STANDING ORDERS

Do not task. Do not extract. Observe and report only. No approach without case-authority sign-off; any contact is to be made by a single unarmed liaison on the subject's terms, never a team. Treat his counsel as actionable intelligence but his person as off-limits. Should he move from the monastery, flag immediately and stand down pending instruction.

AUTHORISED: Joint Secretary (Operations), R&AW off-books desk
